**TPS Publishing Inc. and Partners present:**  
**Creative English Language Arts & Reading**  
**(ELAR) Kindergarten - Grade 8**

**and**

**STEAM into English Language Arts & Reading**  
**Kindergarten - Grade 8**

**All Grades Passed at 100%**

TPS stands for 'Teachers', 'Parents', 'Students'.

TPS, with its partners, has created K-12 adopted curricula, which is being used in over 70 school districts.

Our two programs provide project-based learning lesson plans to fully cover the content of the ELAR Texas Essential Knowledge and Skills (TEKS) and, following scope and sequence requirements. The content has been written, from scratch, to exactly align to the TEKS and lessons are inclusive and provide real-life applications that are inclusive and suitable for all students from all demographic groups. TPS has submitted two ELAR programs. We wanted to provide options to school districts. The Creative ELAR program uses a more gentle, traditional approach to learning, whereas the STEAM into ELAR program includes a higher percentage of STEAM projects. TPS have included already adopted math and science led STEAM projects so that all three core subjects can be studied simultaneously. To accompany these projects and to further develop ELAR learning and application, TPS created ELAR activities linked to the math and science projects, including ELAR written, verbal, visual and tactile assessments. Students review core subject content simultaneously.

### Why STEAM?

Do you have struggling students who fail to master core subject content and find examinations really difficult? Do you have gifted and advanced students who need to be challenged?

A **major goal** of the TPS programs is to help alleviate the inequities that have prevented many children and youths from mastering ELAR. TPS wish to support schools and districts to implement high quality, cross curricula, relevant, and engaging ELAR content and pedagogy, to ensure that classrooms are inclusive and exciting for all students. TPS focuses on every student, regardless of background or learning characteristics, being able to access and be inspired by STEAM learning opportunities.

### Both Programs Provide:

TEKS Aligned 100%	✓
K - 2 Materials	✓
3 - 5 Materials	✓
6 - 8 Materials	✓
Word Study	✓
Read Alouds	✓
Phonics Family Workshop	✓
ESL / SEN Materials	✓
Tiered Intervention and Enrichment	✓
Print Classroom Libraries	✓
Digital Libraries	✓
STEAM Blended Learning Experiences	✓
Connections to District Profile of a Graduate can Occur	✓
Integrate with LMS and/or SSO	✓
Affordable, High Quality	✓
24 Hour Ongoing Support	✓
Easy to Use and Implement	✓
Professional Development Available	✓

CeMaST professors, at Illinois State University, researched and created wonderful TEKS aligned STEM projects where students define, assess, plan, implement and communicate (DAPIC). Action Based Curriculum provide arts projects approved by nasen for special education students K-8. The Alaska suite of products, provides reading practice and excellent place-based science activities using a DVD and soundtrack. TEAM UP! ensures provision of math and ELA focus using their TEKS based G3-8 game.

TPS focuses on inclusion of family engagement products. We partner with Really Good Stuff, and

we provide kits for grade spans K-2, 3-5 and 6-8, which are especially useful for centers in the classroom and includes family engagement components; available in English and many in Spanish. **Archway is a phonics program included for all ages and helps students to learn to read, speak and write English.** TPS can also provide access, for parents, to parent/student components, which can be used throughout the school year where families either have access through their own home computer, or through the use of computers at a local library.

## Creative English Language Arts and Reading - Kindergarten to Grade 8 STEAM into English Language Arts and Reading - Kindergarten to Grade 8

Each program has a teacher edition, and matching student edition with cross referenced pages together with a consumable student workbook with write on pages.

Digital access to a host of online assessment is provided and TPS provide visual and tactile assessments, by grade and online interactive and printed tests, by student skill level, by grade.

TPS provide ongoing support throughout the school year with a 24 hour helpline.

Pricing is very affordable, and we hope you will contact us for further information and/or use the digital links to see our content.

**When making your program choice STEAM Makes Sense:** Peer reviewed research suggests that; Building in opportunities in STEM classes to develop and use the principles, skills and ingenuity of the arts can “serve as an on-ramp for STEM success for underrepresented students. Engaging students’ strengths using art activities increases motivation and the probability of STEM success,” by “offering more diverse learning opportunities and greater access to STEM for all types of learners” (Jolly 2014).

**Call toll free 866-417-9384  
to talk with one of our  
wonderful teacher/writers.**

**Your personalized log-on information and digital  
access to view the full programs.**
