

## California Content Standards

2.f. Students know plants use carbon dioxide (CO<sub>2</sub>) and energy from sunlight to build molecules of sugar and release oxygen.

## Fun Practice Assignment

Answer the following questions using the diagram and what you know about photosynthesis.

- Where does the plant get the energy for photosynthesis?  
 \_\_\_\_\_  
 \_\_\_\_\_
- What two substances does the plant use to make food?  
 \_\_\_\_\_  
 \_\_\_\_\_
- Write the word equation for the process of photosynthesis  
 \_\_\_\_\_  
 \_\_\_\_\_
- What process does the plant use to release the energy it needs from the glucose?  
 \_\_\_\_\_  
 \_\_\_\_\_
