Introduction	4
--------------------	---

Set 1. Physical Sciences

Elements and their combinations account for all the varied types of matter in the world..... 7

Chemical Reactions	7
--------------------------	---

Molecular Models	17
------------------------	----

Metals	26
--------------	----

Elements	34
----------------	----

Microscopes	42
-------------------	----

Separate Mixtures	46
-------------------------	----

Properties of Substances	62
--------------------------------	----

Earth's Crust.....	79
--------------------	----

Salts	87
-------------	----

Set 2. Life Sciences

Plants and animals have structures for respiration, digestion, waste disposal, and transport of materials..... 96

Specialized Structures	96
------------------------------	----

Circulation and Respiration.....	104
----------------------------------	-----

Digestion	114
-----------------	-----

Kidneys.....	119
--------------	-----

Transportation in Plants.....	123
-------------------------------	-----

Photosynthesis.....	132
---------------------	-----

Cellular Respiration.....	141
---------------------------	-----
